WARNING

Photosensitivity/Epilepsy/Seizures

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing.

IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness,
- altered vision,
- eye or muscle twitches,
- loss of awareness,
- disorientation,
- seizures, or
- any involuntary movement or convulsion.

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep the screen a safe distance from your face.
- Avoid prolonged use of the PSP® system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Radio waves

Radio waves may affect electronic equipment or medical devices (for example, pacemakers), which may cause malfunctions and possible injuries.

- If you use a pacemaker or other medical device, consult your physician or the manufacturer of your medical device before using the wireless networking feature (Bluetooth® and wireless LAN).
- Keep the PSP® system at least 23 cm (9 inches) away from a pacemaker or other medical devices when using the wireless networking feature.
- Do not use the wireless networking feature in the following locations:
  – Areas where wireless network use is prohibited, such as in hospitals. Abide by medical institution regulations when using the system on their premises.
  – Crowded areas.
  – Areas near fire alarms, automatic doors and other types of automated equipment.

- Use caution when using the wireless networking feature in a vehicle, as radio waves may affect electronic equipment in some vehicles.

Safety

This product has been designed with the highest concern for safety. However, any electrical device, if used improperly, has the potential for causing fire, electrical shock or personal injury. To help ensure accident-free operation, follow these guidelines:

- Observe all warnings, precautions and instructions.
- Regularly inspect the AC adaptor and AC power cord.
- Stop use, unplug the AC power cord from the electrical outlet and disconnect any other cables immediately if the device functions in an abnormal manner, produces unusual sounds or smells or becomes too hot to touch, or has become misshapen.
- Contact Customer Service Hotline (••▶ back cover) if the device does not operate properly.

Use and handling

- Use in a well-lit area and keep the screen a safe distance from your face.
- Avoid prolonged use of the PSP® system. To help prevent eyestrain, take a break of about 15 minutes during every hour of play.
- If you experience any of the following health problems, discontinue use of the system immediately. If symptoms persist, consult with your physician.
  - Dizziness, nausea, fatigue or symptoms similar to motion sickness
  - Discomfort or pain in a part of the body, such as eyes, ears, hands or arms
- Permanent hearing loss may occur if earphones or headphones (sold separately) are used at high volume. Set the volume to a safe level. Over time, increasingly loud audio may start to sound normal but can actually be damaging your hearing. If you experience ringing in your ears or muffled speech, stop listening and have your hearing checked. The louder the volume, the sooner your hearing could be affected. To protect your hearing:
  - Limit the amount of time you use earphones or headphones at high volume.
  - Avoid raising the volume to block out noisy surroundings.
  - Lower the volume if you can't hear people speaking near you.
- Keep the system and accessories out of the reach of small children. Small children may swallow the Memory Stick Micro™ media or wrap the cables/straps around themselves, which may inflict injury or cause an accident or a malfunction.

- Do not use the system while driving or riding a bicycle. Looking at the screen or operating the system while driving an automobile or riding a bicycle may result in a traffic accident.
- Take extra care when using the system while walking.
- Handle the display panel with care when opening and closing.
- Be careful not to pinch your fingers when closing the display panel.
- Do not use the system or accessories near water.
- Use only attachments/accessories specified by the manufacturer.
- Do not expose the system or accessories to high temperatures, high humidity, or direct sunlight.
- Do not leave the system or accessories in a car with the windows closed (particularly in summer).
- Do not expose the system or accessories to dust, smoke or steam.
- Do not allow liquid or small particles to get into the system or accessories.
- Do not place the system or accessories on surfaces that are tilted, unstable or subject to vibration.
- Do not throw, drop or step on the system or accessories, and do not subject the devices to strong physical shock. Sitting down with the PSP® system in a pocket or placing the system in the bottom of a backpack along with heavy objects may cause damage to the system.
- Do not forcibly twist the PSP® system or expose the system to strong physical shock during gameplay, as doing so can damage the system.
- Handle the analog stick with care.
- Do not put heavy objects on the system or accessories.
- Do not touch or insert foreign objects into the connectors of the system or accessories.
- Do not place the system close to items with a magnetic strip, such as credit cards.
- Depending on the conditions of use, the system or AC adaptor may reach temperatures of 40°C/104°F or more. Do not touch the system or AC adaptor for an extended period of time under these conditions. Extended contact under these conditions may cause low-temperature burns*.
  - * Low-temperature burns are burns that occur when the skin is in contact with objects of relatively low temperatures (40°C/104°F or more) for an extended period of time.
- When connecting the system to a plasma or projection* TV, do not leave a still image on the TV screen for an extended period of time, as this may leave a faint image permanently on the screen.
  - * Except LCD screen types

AC adaptor and AC power cord use

- For your safety, use only a licensed or genuine Sony AC adaptor. Other types may cause fire, electrical shocks or a malfunction.
- Do not touch the plug of the AC power cord with wet hands.
- Do not touch the AC power cord, AC adaptor or the system, if connected to an electrical outlet, during an electrical storm.
- Do not allow dust or foreign matter to build up around the system or accessory connectors. If there is dust or foreign matter on the system's connectors or the AC power cord, wipe it off with a dry cloth before connecting. Dust or other matter on the connectors can result in fire or electrical shock.
- Unplug the AC power cord from the electrical outlet and disconnect any other cables from the system before cleaning or when you do not intend to use the system for an extended period of time.
- Protect the AC power cord from being walked on or pinched particularly at plugs, convenience receptacles and the point where they exit from the system.

- When disconnecting the AC power cord, hold it by the plug and pull straight out from the electrical outlet. Never pull by the cord and do not pull at an angle.
- Do not use the system to play games or video when the system is covered with any type of fabric. If you want to pause or temporarily store the system while playing games or video, put the system in sleep mode before placing it in the case or covering. Also do not use the AC adaptor when covered with fabric to help avoid overheating.
- Do not connect the AC power cord to a voltage transformer or inverter. Connecting the AC power cord to a voltage transformer for overseas travel or an inverter for use in an automobile may cause heat to build up in the AC adaptor and may cause burns or a malfunction.

LCD screen

- The LCD screen is made of glass and may crack if subjected to excessive force.
- Pixels that are not lit or are continuously lit may appear in certain locations on the LCD screen. The appearance of such spots is a normal occurrence associated with LCD screens and is not a sign of a system malfunction. LCD screens are made using highly precise technology. However, a very small number of dark pixels or continuously lit pixels exist on each screen. Also, a distorted image may remain on the screen for several seconds after the system has been turned off.
- Direct exposure to sunlight may damage the system's LCD screen. Be careful when using the system outdoors or near a window.
- When using the system in a cold environment, you may notice shadows on the graphics or the screen may appear darker than usual. This is not a malfunction, and the screen will return to normal when the temperature goes up.
- Do not leave still images displayed on the screen for an extended period of time, as doing so may cause a faint image to be left permanently on the screen.

Recorded data

Do not use the Memory Stick Micro™ media in the following ways, as doing so may result in data loss or corruption:

- Removing the Memory Stick Micro™ media or turning off the system while it is loading or saving data or being formatted.
- Using it in a location that is exposed to static electricity or electrical interference.

If, for any reason, software or data loss or corruption occurs, it is usually not possible to recover the software or data. It is recommended that you regularly back up software and data. Sony Computer Entertainment Inc. and its subsidiaries and affiliates will not be held liable for any damages or injury in the case of software or data loss or corruption.

In accordance with copyright law, no recorded data may be used for purposes other than personal enjoyment without permission from the copyright holder.

Never disassemble the system or accessories

Use the PSP® system and accessories according to the instructions in this manual. No authorization for the analysis or modification of the system, or the analysis and use of its circuit configurations, is provided. Disassembling will void the system warranty. Additionally, there is a risk of fire, electrical shock or malfunction. The LCD screen, in particular, contains dangerous, high-voltage parts.

Using an access point

When using the PSP® system's search function to select a wireless network access point, access points that are not intended for public use may be displayed. Only connect to a personal access point that you are authorized to use, or one that is available through a commercial wireless network or hotspot service. User is responsible for all fees associated with wireless network access.

Use in other countries

Depending on the country, there are limitations on the use of certain types of radio waves. In some cases, use of the PSP® system may lead to a fine or other penalty.

Handling and care of exterior surfaces

Follow the guidelines listed below to help avoid deterioration or discoloration of the PSP® system.

- Do not use solvents or other chemicals to clean the exterior surface.
- Do not allow the system to remain in direct contact with rubber or vinyl products for an extended period of time.
- Do not use a chemically-treated cleaning cloth to wipe off the system.

Before using the analog stick

- Do not attempt to remove the analog stick from the system front, as doing so will damage the system and may result in injury.
- For best results, go to (Settings) ➡ (System Settings), and then with the [System Information] screen displayed, rotate the analog stick in a circular motion to adjust the analog stick's range of movement.

關於交流電轉換器和交流電源線的使用

- 為您安全著想，請務必使用獲正式授權或正規的 Sony PSP® 專用交流電轉換器。使用其他非指定的交流電轉換器，可能導致火災觸電，或主機故障。
- 請勿用濕手觸摸交流電源線的端子。
- 請勿在雷雨天氣中，觸摸正連接至電源插座的交流電源線、交流電轉換器或主機本身。
- 請勿讓灰塵或異物堆積於主機或附屬品等周邊機器的端子四周。若發現有灰塵或異物堆積於主機端子的四周或是交流電源線上，請在連接前使用乾淨軟布擦拭。堆積於連接端子上的灰塵或其他異物可能會導致火災或造成觸電。
- 於您準備開始清潔或打算長時間不使用主機時，請自電源插座中拔出交流電源線，並拔掉所有其他連接線。
- 請避免踩到或掐擠交流電源線，尤其是插頭、轉接用的便利插座與電源線等自主機延伸出來的組件更需注意。
- 在拔下交流電源線時，請捉住電源插頭筆直地將插頭從電源插頭拔出。絕不能拉扯連接線或強制朝特定方向拔取。
- 請勿於使用布等物品覆蓋主機時遊玩遊戲或觀賞影像。假如您想於遊玩遊戲或觀賞影像時暫停或暫時收起主機，請在放入盒子或套子前，先讓主機進入睡眠模式。又，於使用布覆蓋主機時，請勿使用交流電轉換器，以避免主機出現過熱現象。
- 請勿將交流電源線插入變壓器或反相器。將交流電源線插入海外旅行者使用的變壓器或汽車專用的反相器，可能會導致交流電轉換器發熱，並造成灼傷或故障。

液晶畫面

- 液晶螢幕乃是採用玻璃製成。若受到過大的外力衝擊可能會出現破裂。
- 在液晶畫面的某些特定位置可能會出現黑點（暗點）或持續性的亮點。液晶畫面出現此類現象乃是正常現象，並非故障。液晶畫面係使用高精密度的技術製造。但每個畫面仍可能會殘存極少數的暗點或持續性的亮點。又，在關閉主機後，部分已消滅的影像仍可能於畫面上殘存數秒鐘。
- 直射的日光可能會損壞主機的液晶畫面。當於戶外或窗戶附近使用本主機時請務必小心。
- 在寒冷的環境中使用本機時，您可能會發現圖像出現陰影或畫面似乎顯得比平常陰暗。此非一種故障，且螢幕會於溫度上昇後恢復正常。
- 請勿讓畫面長時間顯示靜態影像。這可能會導致模糊的影像永遠殘留在畫面上。

保存資料

請勿以下述方法使用 Memory Stick Micro™，否則可能會導致資料的遺失或毀損。

- 於載入、保存資料或進行格式化時，強硬取出 Memory Stick Micro™ 或關閉主機電源。
- 於帶有靜電或有電波干擾之區域使用。

無論理由為何，遊戲與資料一旦遺失或毀損，通常即已無法復原。因此建議您應定期為遊戲與資料預留備份檔案。Sony Computer Entertainment Inc. 與其子公司、關係企業對於因遊戲或資料的遺失或毀損而造成之損害，概不承擔任何責任。

替電池充電

於購買後準備開始使用 PSP® 主機前，或當電池的充電量不足時，請先依照下述步驟替電池充電。

⚠ 注意

- 如果裝置出現動作不正常，或者發出異常聲音或氣味、因過熱而無法觸碰或出現變形時，請立即停止使用，並從電源插座中拔掉交流電源線插頭及所有的其他連接線。
- 在完成所有連接前，請勿將 PSP® 主機的交流電源線插頭插入電源插座。

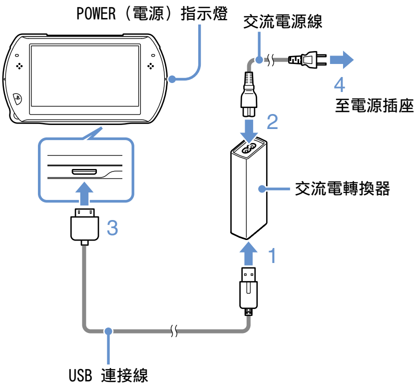

1 將 USB 連接線插入交流電轉換器。

2 將交流電源線插入交流電轉換器。

3 將 USB 連接線插入主機底部的多用途連接埠。

4 將交流電源線插入電源插頭*。

POWER（電源）指示燈會亮起橘色燈，表示開始為電池充電。電池充電結束後，POWER（電源）指示燈即會立即熄滅。

* 連接線之形狀會因國家或區域而異。

關於電池的充電量

確認電池的剩餘充電量

您可透過螢幕右上方顯示的圖示，確認電池的剩餘充電量。需替電池充電時，會自動顯示圖示。

電池的剩餘充電量已減少時，會顯示 圖示，且 POWER（電源）指示燈會閃爍綠燈。此時請替電池充電。

提示

環境或使用狀況可能會導致無法正確顯示剩餘充電量。

電池的預估充電時間*

使用交流電轉換器充電	約 2 小時 20 分
使用 USB 裝置充電	約 4 小時

* 當電池電力已耗盡時

提示

建議您在溫度介於 10℃ 至 30℃（50°F 至 86°F）的環境下替電池充電。在其他溫度的環境下充電可能會減低充電的效率，或減低電池的效能。

電池的預估持續時間

遊戲	約 3-6 小時*1
播放影像	約 3-5 小時*2

*1 選擇單人遊玩模式且使用耳機，但未使用無線網路及 Bluetooth®（藍芽）機能的測試結果。

*2 選擇交替使用主機喇叭、耳機，且切換各種音量與畫面亮度的測試結果。

提示

電池使用時間會視播放的內容種類、畫面亮度等使用狀況，以及環境因素而有所不同。隨著重複使用與電池組壽命的耗減，電池使用時間會逐漸縮短。

電池壽命

內置電池的壽命有限。電池續航力（使用時間）會因重複使用的次數與時間而不斷減少。若電池的使用時間開始明顯縮短，請致電客戶服務熱線（••▶ 背頁）。

提示

電池的壽命會因儲存方法及使用狀況，包括溫度等長期環境因素而有所不同。

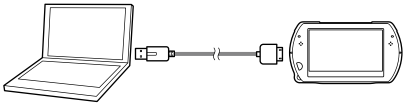

如何充電

使用交流電轉換器

可使用交流電轉換器替主機的電池充電。連接 USB 連接線與交流電轉換器，再將交流電源線插入電源插座。詳細請參閱 "替電池充電"（••▶ 第 72 頁）。

使用 USB 裝置
